

Chapter 54 Meeting Minutes: June 2023

Date: June 8, 2023

Time: 12:30 PM

Location: ZOOM

The meeting called to order at 12:15 PM by Richmond Chapter's Mike Friedman and Todd Washburn (Chapter 54 had a joint meeting online)

National: Election Nominations underway

EAS: No Report

Frequency Coordination: Frequency coordination data and contacts updated

Web: No report

Certification: No report

Membership: No Report

Disbursements and receipts:

There are no receipts for this month.

Checking: \$3922.51 Petty Cash: \$64.01 Total Chapter Assets: \$3986.52

Respectfully submitted, Kimberly Beeman, Chapter 54 Treasurer

New Business: Upcoming webinars "RF for IT." Time to nominate Chapter "Engineer of the year."

Program: Presentation: Broadcast Electronics "**Quick Block**" presented by Frank Gundstein (BE Eastern Regional Sales Mgr).

Summary:

Quick Block is an innovative transmitter technology using Plug and Play modular "blocks". The system can be combined to create radio frequency equipment for broadcast use. With the same modules, programmed and customized as needed, Radio transmitters or **TV Transmitters** of different powers and formats can be created. The first transmitter, introduced at NAB, is the Quick Block **FM Transmitter**. From 1KW to 50Kw all using the same modules, it is an EASY TO USE and PLUG & PLAY system that offers many benefits from a logistical, technological, maintenance, and operating cost point of view. It has been designed for maximum up-time, greater ease of maintenance, intrinsic redundancy, ease of finding parts, and ease of implementing technological updates.

Meeting adjourned 1:31 PM
