Respectfully submitted, Kimberly Beeman, Chapter 54 Treasurer

New Business: WHRO still seeking RF engineer. Opening nominations for new Chapter 54 Chairman

Presentation: SBE Certification Explained by Megan Clappe

Presentation Summary: This presentation was my idea (Mike Friedman). I believe many of us feel we don't have time nor the resources to prepare for a SBE Certification exam. There are also some who may not enjoy taking exams, don't test well or simply haven't taken the time to research what's involved in these certification exams.

SBE Certification Director Megan Clappe will explain all that's involved with the SBE Certification program. **IT CAN BE EASIER THAN YOU THINK.** If you take a moment to review Megan's SBE Fellow announcement, you'll quickly learn she is not only instrumental in the success of our certification program but has earned the respect of many SBE members.

Meeting adjourned 1:26 PM
