

Chapter 54 Meeting Minutes: September 2025

Date: September 11, 2025

Time: 12:30 PM

Location: ZOOM, hosted by Mike Friedman of Chapter 60

The meeting called to order by Bill Sewell at 1:19 for Chapter 54.

Previous minutes read and accepted

National: no report

EAS: NWS acknowledges error messages. Did not occur in Sage units.

Frequency Coordination: New measurements from Billy Harrison

Web: no report

Certification: No report

Membership: No report

Disbursements and receipts:

Checking: \$4739.69 Petty Cash: \$64.01 Total Chapter Assets: \$4803.70

Respectfully submitted, Kimberly Beeman, Chapter 54 Treasurer

New Business: FCC will approve Virginia EAS plan. Discussion on transmitter coolant maintenance.

Presentation:

DTV OX-01/04

Presented by Tony DeMarco, Heartland Video Systems (HVS)

Presentation Summary:

Tony DeMarco of HVS will walk us through the **DTV OX-01/04**, a Reliable IP Streaming Appliance

This presentation will cover:

A description of the DTV OX-01/04 from [dtvinnovations](http://dtvinnovations.com)

The OX-1 is a compact, secure reliable IP streaming appliance supporting SRT, Zixi, RIST and SMPTE 2022 streaming formats. OX-1 is ideal for streaming media over busy LANs, the unpredictable public internet, and microwave links with an IP interface.

When configured as a sender, the OX-1 accepts MPEG transport stream over IP, encrypts the content, and encapsulates the secured packets in a transport stream wrapper based upon the selected streaming protocol. When configured as a receiver, the process is reversed.

An optional ASI hardware interface is available thus adding the capability to convert an ASI transport stream to an IP transport stream prior to processing the IP stream for reliable, low latency delivery over unpredictable Internet and LAN connections.

Meeting adjourned 1:32 PM
